

Do a runner with LGN

Welcome to LGN Wellbeing

Welcome to LGN's training guides, these have been written by our elite LGN training team many of whom have run internationally and or have degree level physiology qualifications.

LGN's core service is providing blue chip organisations with cost effective in-house Run Clubs & ancillary wellbeing staff support, if you would like more information please email info@lgnwellbeing.com

Our approach

Our aim is to provide runners of all abilities with flexible training templates that promote tangible progression & running joy. LGN training progression is deliberately designed to be gently progressive as we look to acquire long term running fitness gains and pre-emptively avoid injuries.

LGN's '3 C Training Philosophy' (free download from LGN website) has been successfully implemented for over decade by our LGN corporate Run Clubs at BP, M&C Saatchi, Coca Cola, Investec, Jones Lang LaSalle & Omnicom Media et al.

LGN training key

Training Gears

LGN's concept of using Gears was created due to diverse ability levels of people attending LGN corporate Run Clubs. 1st Gear is your most comfortable relaxed pace, 2nd Gear is the most subtle increment you can identify and hold, and further gears are similarly the most subtle pace extension you can identify.

Both an Olympic and beginner runner alike will each have 1st Gear, the only difference is that the pace will be dependent on their base fitness. Initially aim to simply try and identify 5 Gears, with 1st Gear being your steady warm up pace and 5th Gear being your controlled sprint for a bus.

LGN Gears are subjective day to day and will vary in terms of exact pace depending on cumulative fatigue, weather etc, the important aspect is they are always subtle & nuanced pace increments on each other. The more subtle Gears you can identify the more running control you will gain.

Tempo Run

These runs form an important training aspect both physiological and mentally. The idea is to repeat the session on the same course over time and take note of your time, we then aim to slice a very small amount time from this effort on each further run.

However, while the goal is to run slightly faster each time, we are not aiming to do it by trying with greater perceived exertion, but instead staying relaxed and letting the tempo run be the tangible evidence of your running fitness gains.

Good luck from all the LGN team, running is a gift for life and half the pleasure is the unwrapping!

LGN Marathon 16 week lactic journey of joy - Mission sub 4hrs 30mins

This LGN marathon plan aims to provide running progression to allow the 4hr 30min barrier to be successfully broached. Sub 4.30 requires holding a pace of 10mins18 seconds per mile and you should be able to run 10km in under 60mins before using this plan.

Wk	Mon	Tue	Wed	Thu	Fri	Sat	Sun	LGN top tip
1	35 mins 1st G	REST	30mins 1st G	45 mins 1st G	REST	20 mins 1st G / 15 mins 2nd G / 15 mins 1st G	70 mins 1st G	Welcome once more to your next LGN training voyage, the Marathon is a great event and especially rewarding,
2	40 mins 1st G	REST	25 mins 1st G	45 mins 1st G	REST	10 mins 1st G warm up 8 x 2 mins in 3rd G 60 seconds standing recovery between each 10 mins 1st G cool down	75 min 1st G	
3	45 mins 1st G	REST	Interval run: 15 mins 1st G 10 mins 2nd G 5 mins 3rd G 15 mins 1st G	REST	REST	60 mins 1st G Or Am 30 mins / PM 45 mins	85 min 1st G	You are going to need to start listening to your body, to reach 26 mile goal we need to pre-empt NOT react to problems
4	40 mins 1st G	REST	40 mins 1st G	45 mins 1st G	REST	45-55 min Tempo 2nd G <i>Identify new run route Make note of time as we will need to compare on week 8</i>	70 mins 1st G	Make sure during Saturday Tempo run you feel able to hold 2-3 word conversation throughout
5	45 mins 1st G	REST	40 mins 1st G	50 mins 1st G	REST	Race weekend? Looking for 10km race where you will aim to run at target sub 4.30 marathon pace – 64 minutes for 10km Prior to race please do minimum of 20min light 1s G warm up and after run aim for another 20min 1st G cool down If no race available either try running 10min 18sec per mile pace and mimicking above	Race?	Rest on whatever day of weekend the race / training is not taking place
6	50 mins 1st G	REST	REST	50 mins 1st G	REST	10 mins 1st G warm up 6 x 4 mins in 3rd G 60 seconds standing recovery between each 10 mins 1st G cool down	90 mins 1st G	
7	45 mins 1st G	REST	Interval run 15 mins 1st G 10 mins 2nd G 10 mins 3rd G 10 mins 1st G	55 mins 1st G	REST	70 mins 1st G Or Am 30 mins / PM 45 mins	100 mins 1st G	As your Sunday runs now go beyond 90 mins you need to be practicing take fuel with you on the run, most efficient are the energy gels, recommend isotonic and non caffeine version initially
8	35 mins 1st G	REST	50 mins 1st G	35 mins 1st G	REST	50 - 55 min Tempo 2nd G <i>Same route as week 4 and your aim is to shave no more than 30 seconds from your time and stay in 2nd G</i>	80 mins 1st G
